

# HELP STUDENTS LEARN

Change A Life - Raise Awareness - Give Back.

## HELP US HELP SPORTS COLLEGE STUDENTS

Innergize Your Workplace is not only a great way to benefit your employees and your organization but it will also help Sport College Students from around the country to upskill themselves with the latest in fitness, health and sports training.

Asia Fitness Convention 2009 is bringing 25+ presenters from around the world to showcase cutting edge techniques to train general population, fitness enthusiasts, amateur and professional athletes.

Students from Sports Colleges around the country would benefit tremendously from such a cutting edge Educational Event. Whatever they will learn from the convention will eventually return to society and bring Thailand's Health & Fitness Industry to the next level.

Local government educational budgets cannot support them and they cannot afford it themselves. So, we are asking for your help.

Whatever you contribute to Innergize Your Workplace, AFC 2009 will match. All contributions will go to a Scholarship Fund for Sports College Students.

By helping students at Sports Colleges attend this World Class Fitness Event, you are not just helping them, you are investing in a healthy & stress-free working environment for your company. Win-Win-Win!

## HOW IT WORKS

To participate, your organization need to book a minimum 10 persons per session.

Each person will contribute what they feel is fair to the scholarship fund. Your organisation will match your employees contribution.

In return, your company will be mentioned during the press conference, event manual as well as in our website as sponsors toward the shcolarhsip.

## WHAT YOU WILL NEED

A quiet, comfortable space large enough to use (boardroom, lunchroom, spare office, A/V room, gymnasium, etc.)

Each person will need a yoga mat, comfortable clothing and a water bottle

CD player or computer to use for music (optional)
